Here I Am

The Explosion

There's poison in the boys in blue
There's poison in the boys in blue
Corruption, greed and feud are all I see
You're in a disarray
Things used to be a different way
Whatever happened to the golden ageIt's gone, yeah, it's gone away
So don't ever turn your back again
One false move and we're all deadHere I am, here I am
I'm back at the crossroads again
Oh, let me stand, let me stand

On top of the mountain againThere's movement in the distance

Gunshots are all I hear

This petty resistance is all I see

I want to walk away
Remember better days

We watch the death of something beautifulIt's gone yeah it's gone away So, don't ever turn your back again

One false move and we're all deadHere I am, here I am, here I am I'm back at the crossroads again

Oh, let me stand, let me stand, let me stand On top of the mountain againWhen we find a problem

We never look back and say

One chance, one moment

It's gone so easily Well here I am, here I am, here I am

I'm back at the crossroads again

Oh, let me stand, let me stand, let me stand

On top of the mountain againWell here I am, here I am, here I am

I'm back at the crossroads again

Oh, let me stand, let me stand, let me stand On top of the mountain again
