

# Night Bus

Lucy Rose

You see trouble in her eyes  
And youve known to only sp\_\_ realize.  
Its not fading however hard you try  
cause its building up for her life.  
i-i-i-im not a lone  
she said i-i-i-im not alone.

She takes the ni-i-ight bus home  
shes not phased by the darkness in her soul.  
And you better catch a glimpse of her  
Shes wrapped tightly hiding in her clothes.  
i-i-i-im not a lone  
she said i-i-i-im not alone  
she said haaa- ha im not alone

And strangers- and theyre walking my way  
and im talking to my self  
and straaangers- and theyre walking my way  
and im talking to myself  
And strangers- and theyre walking my way  
and im talking to my self  
and straaangers- and theyre walking my way

i-i-i-im not a lone  
she said i-i-i-im not alone  
she said i-i-i-im not alone  
she said haaa- ha im not alone

---
