

# Scene This

## Pitchshifter

I bet you both, I bet you both, you make the most  
I set the scene, I set the scene, I'll make you clean You can waste your time this time  
Yes, you can waste your time, not mine Because I'm never letting go  
You know there's nothing else to be  
I can't give up for you this time  
You know I gotta set the scene  
I gotta set the scene I set you straight, I set you straight, I take the bait  
I set the scene, I set the scene, I'll make you clean You can waste your time this time  
Yes, you can waste your time, not mine Because I'm never letting go  
You know there's nothing else to be  
I can't give up for you this time  
You know I gotta set the scene Because I'm never letting go  
You know there's nothing else to be  
I can't give up for you this time  
You know I gotta set the scene  
I gotta set the scene I gotta set the scene, this  
I gotta set the scene, this You can waste your time this time  
Yes, you can waste your time, not mine Because I'm never letting go  
You know there's nothing else to be  
I can't give up for you this time  
You know I gotta set the scene Because I'm never letting go  
You know there's nothing else to be  
I can't give up for you this time  
You know I gotta set the scene  
I gotta set the scene
