

# Might as Well Be Me

Chad Brownlee

Girl I know,  
You're probably just sitting home alone,  
Lost in the light of a cell phone glow,  
Waiting on that thing to blow up,  
Hoping that his name will show up.  
Girl, its been a minute since hes been gone,  
And if you need a little help to move on,  
Yeah, you know that I can do that.(chorus)  
If you need someone to call ya and tell you,  
They need you,  
They want you.  
If someboys gotta run a couple,  
Late night,  
Stop lights,  
Just to be the one at your door,  
Baby, holding you right.  
Baby, if you need em,  
Don't you know I can be em.  
If you're looking for somebody,  
Who can be everything you need...  
What the Hell,  
Might as well,  
Might as well be me.  
Might as well be me.If you need a little help,  
Getting back on your feet again.  
Then someone to come,  
Don;'t you know that I can do that,  
I can do that.ChorusMight as well, Might as well  
What the hell, What the hell  
Might as well, Might as well be meChorusMight as well be me (x3)
