

# Let It Roll

## Train

Tried to write a letter  
To tell you how I feel  
All I kept on writing  
Was slippin' on the tears from the day  
An' I was young and brave Now all these hotel lobbies  
Are filled what's to me?  
Lonely midnight drivers  
Driftin' out to sea, yea  
And all those late night lovers  
Don't make things better to me So let it roll in me  
Let it roll in you  
Let it roll in me  
Let it roll back into when I had you Now I watch the snow come calling  
An' I celebrate the spring  
I feel the falls keep falling  
An' when the summers come  
I will pretend that I don't notice  
This is when I notice most of all Let it roll in me  
Let it roll in you  
Let it roll in me  
Let it roll back into when I had you Is all you ever wanted from me  
Was the time to understand and  
All I ever wanted from you  
Was to see me shinin' for you  
An' I wish that I could be back  
In the day that I could say Let it roll  
Let it roll in me  
Let it roll  
Let it roll in you  
Let it roll back into when I had you
