

Our First Christmas Together

Celtic Thunder

Don't mind the snow that's falling
The carol singer's calling
I'm just happy to be spending our first Christmas together And I'll be more than jolly
With the mistletoe and holly
Tonight as we are counting down to Christmas
Together, you and me With those jingle bells ringing
As I'm holding you near
I'll be making a toast
May tonight be the most
Unforgettable night of the year The sound of jingle bells and laughter
Will remind us ever after
Of how we spent that magically first Christmas
Together, you and me Just you and me With those jingle bells ringing
As I'm holding you near
I'll be making a toast
May tonight be the most
Unforgettable night of the year, the year Cuddle up and cozy
The future's looking rosy
And I can us spending every Christmas
Together just, you and me
Just you and me
Just you and me
Just you and me
