

The Way It Goes

Aslyn

I've taken my chances
This fade in my head
With all this romancing
On weeks without end
But I just can't find a way
Far away
Out of this tent
'Cause my timing was off again
My timing was off
Sure found this from the start
'Cause you never noticed my big heart
My timing was true
True to me but not for you
Now I'm still driving this lonely road
Called The Way It Goes
That's the way it goes
A dreamer once told me
We cannot rewind
These fades leave you lonely
You gotta leave them behind
But I just can't find away
Far away
From this fight
'Cause my words were too soft again
My words were too soft

Wouldn't fly straight from the start
And you never noticed my big heart
My words were so true
True to me but not for you
Now I'm still driving this lonely road
Called The Way It Goes
That's the way it goes
So where I'm leading
Oh I've been here before
I can't stop repeating
The critical point
'Cause I always find a way
Far away

To forget what I've stored
And my faith gets lost again
My faith got lost
Seeing empty from the start
'Cause you never noticed my big heart
My faith was so true
True to me but not about you
Now I'm still driving this lonely road
'Cause my timing was off
And my words were too soft
And my faith got lost again
Now I'm still driving this lonely lonely road
Called The Way It Goes
That's the way it goes
