

Won't Let You Fall

Ratham Stone

Verse

Time, dont let it go by
Cause this sand that fills the hourglass
Will never be enough to last
When weve got
A world to be walked
Somewhere weve got more to give
And though we don't have long to live

Pre chorus

That somethings holding me, somethings holding me trapped
That somethings holding me trapped, holding me trappedChorus

Cause I never wont to scream alone at night
From dreams of having lost my home
Id do it for you would you do it for me?

Let you go, wont let you fall

I never want to be the unknown man
When we could be the eyes of the unseen land
Id do it for you would you do it for me

Let you go, wont let you fallVerse

Its hard sometimes

The road seems to wind
When your looking up from down below
Theres only one way left to go
But you, youre one in a few
And long ago we made our minds

Theres nothing left for us to findPre chorus

That somethings holding me, somethings holding me trapped
That somethings holding me trapped, holding me trappedChorus

Cause I never wont to scream alone at night
From dreams of having lost my home
Id do it for you would you do it for me?

Let you go, wont let you fall

I never want to be the unknown man
When we could be the eyes of the unseen land
Id do it for you would you do it for me

Let you go, wont let you fallBridge

I wont let you fall

(All this time, all we have forgot, well go away, were going)
I cant stop the hurt, but now youll get what you deserved

I wont let you fall
(All this time, all we have forgot, well go away, were going)
I cant stop the hurt, but now youll get what you deservedPre chorus
That somethings holding me, somethings holding me trapped
That somethings holding me trapped, holding me trapped
