Silver Linings

Spyro Gyra

Your intentions wrapped and sealed carefully
Patiently my eyes will follow line by line
Paint a picture where you'd rather be tonight
Honestly it seems we're running out of timeYou know, I know and I can tell
Silver linings that you wear so well
If we knew now what we knew then
We'd pass regret into the night againI can taste it on your lips the way you never needed this
Please give me something to forgetYou know, I know and I can tell
Silver linings that you wear so well
If we knew now what we knew then
We'd pass regret into the night again
I told you then, I'll tell you now
I'll find a way to make you mine somehow
