Yehh I would wake up next to you if I could
And I would stare straight past them all to you
I could never say it like I sang it
Drunk talent cause we're fading
But I'll be, i'll be, ill be the first to sayYou could be my mistaaake
I know I want it but I can't staaay
I can't stop thinking it, think it it
I can't stop thinking it, think it it
You could be my mistaaake
I know I want it but I can't staaay
I can't stop thinking it, think it it
i can't stop thinking it, think it it
That it's a little too laaate
a little to laaate
a little to laaate
a little to laaateAnd when the sun comes up again and we're gone
We'll remember every beautiful thing that
went wrong
I could never say it like I scream it
Drunk talent cause we're fading
But I'll be, I'll be, I'll be, the first to sayyou could be my mistake
I know I want it but I can't staaay
I can't stop thinking it, think it, think it it
i can't stop thinking it, think it
You could be my mistaaake
I know I want it but I can't staay
I can't stop thinking it, thinking it, thinking it
That it's a little too laate
a little to laate
a little toyou could be my mistaaake
i know i want it but i can't staaay
i can't stop thinking it, thinking it, thinking it it
i can't stop thinking it, thinking it, thinking it it
you could be my mistaaake
i know i want it but i can't staaay
i can't stop thinking it, thinking it it it
i can't stop thinking it, thinking it
you could be my mistake I would wake up next to you if I could
And I would stare straight past them all to you

I could never say it like I sang it
Drunk talent cause we're fading
