

Son of the Ocean

The Blue Angel Lounge

[Intro]

When the ocean is calling
and the young boy was grown
he's sailing his ship accross the sea

Just try not to follow him
has to stay there all alone
gonna find his way through the sea

[Break]

All night searching
for a reason he never knew
he's sailing his ship across the sea

The sound of the ocean
will guide him on his way
I know he won't return here again

And he's sailing on
And he's sailing on
And he's sailing on

Into his dream
Into his dream
Into his dream

[Instrumental]

When the ocean was calling
and the young boy as grown
he's sailing his ship across the sea

Just try not to follow him
he's got to stay there all alone
gotta find, his way through the sea

[Instrumental]
