Brand New

Lalah Hathaway

As I close my eyes I breathe you in slow
And I let you take control
As you whisper softly I know... what will unfoldSo familiar I feel you deeply
Ain't no boundaries between us, clearly
What we know is who we are, really
Baby I'm here...For always, you know me well
Forever, under your spell
For loving you, I'm overwhelmed
From the start I knew you were the one
You and me, me and you, together we feel brand new
Discovering, Imagining, forever we feel brand new
Beautiful, magical, wonderful you are
Just you and me, me and you together we feel brand newWe've been here before and I recognize the tension
And baby you've got my full attention
I'll never tire of this pleasure, baby it's you
For always, you know me well
Forever, under your spell
For loving you, I'm overwhelmed
From the start in my heart you were the one
You and me, me and you, together we feel brand new
Discovering, imagining, forever we feel brand new
Beautiful, magical, wonderful you are
Just you and me, me and you, together we feel brand new
You and me, me and you, together we feel brand new
Discovering, imagining, forever we feel brand new
Beautiful, magical, wonderful you are
Just you and me, me and you together we feel brand new
