

Make My Day

[Raphael Saadiq](#)

Being with you, baby, that's gonna make my day
Come and help me, darling, I just wanna play
Being with you, baby, that's gonna make my day
Come and help me, darling, I just want to play Being with you, baby, that's gonna make my day
Come and help me, darling, I just wanna play
Being with you, baby, that's gonna make my day
Come and help me, darling, I just wanna play Being with you baby that's gonna make my day
Come and help me darling, I just wanna play
