One Shot

Jared Horgan

I tried to see with you eye to eye
But I guess this is do or die
and that's alright

I need you to organize and see things through
deceits and lie are what I use
to fill the gap between me and you

I'm a fool, now I realize now I need you
Give me a sign, me a clue.
Give one chance to prove.

I got one shot to reach the top
I will climb no I won't stop
Oh baby I'm chasing these dreams wanna make them come true
and I'll reach the top when I'm with you

Take me back, I promise I'll make this last.
I didn't know what I had till it was too late now I'm stuck in cliches

I'm a fool, now I realize now I need you
Give me a sign, me a clue.
Give one chance to prove.

I got one shot to reach the top
I will climb no I won't stop
Oh baby I'm chasing these dreams wanna make them come true
and I'll reach the top when I'm with you

Despite everything I've said, you are what I need...

I got one shot
