

# Black Panther

## Livin' Blues

Black panther defy the power  
Fight the violence with nonviolence  
What good is justice if the scales are bent  
By a criminal government?  
Think of the dead in Vietnam  
Think of the dead in Birmingham  
Think of the freedom we don't understand  
Asleep in bed in a stolen land  
Responsibility to understand  
Responsibility to take a stand  
Responsibility to know your place  
In the struggle of the human race
