

Dance With Me

[Stella Soleil](#)

Will you dance with me, will you hold me close?

Will you dance with me, can we just let go?

Oh dance with me

With your hand against the small of my back

Losing all sins of time and the past

Can you feel my heart pressed against yours?

Caught in the moment of my private rapture

Can you feel my desire, my sensuality?

Caught in the moment of my private rapture

Don't you wanna do, do something?

Will you move with me like it move inside?

Will you come with me, will you make me smile?

Oh dance with me

With your hand against the small of my back

Losing all sins of the time and the past

Can you feel my heart pressed against yours?

Caught in the moment of my private rapture

Can you feel my desire, my sensuality?

Caught in the moment of my private rapture

Can you feel my heart pressed against yours?

Caught in the moment of my private rapture

Can you feel my desire, my sensuality?

Caught in the moment of my private rapture

Come on darlin', come on to the floor

Can't you see I'm waitin'?

Come on lover don't you answer more

Can't you hear me sayin'?

Can you feel my heart pressed against yours?

Caught in the moment of my private rapture

Can you feel my desire, my sensuality?

Caught in the moment of my private rapture

Can you feel my heart pressed against yours?

Caught in the moment of my private rapture

Can you feel my desire, my sensuality?

Caught in the moment of my private rapture
