Intro (Never Back Down)

Throwdown

Never back down, never give in. just let the fucking bastards do themselves in.
You fucking bastards. never back down. never give in. just let the fucking
Bastards do themselves in. you fucking bastards. I'm gonna stand my ground.
You fucking bastards. time to stand your ground. the time is now. don't be
Another victim. take back what's fucking yours. stay true to your convictions.
