

# Young And Innocent

## Eyes

It was only yesterday, we were young and running free  
We had the world, we were only seventeen  
It was a better time, a time we thought would never end  
We were the youth, we were all the best of friendsRemember Friday nights on the back streets  
Remember ladies of the nightWe were the young and innocent, remember the nights  
Where did the times go wrong, we'll never know  
We were the young and innocent  
Come aliveWhere did Johnny go? I hear he runs the local store  
The home coming king and queen  
Now hold their own courtFilm at eleven, shows a casualty  
The face is one I used to knowWe were the young and innocent, remember the nights  
Where did the times go wrong, we'll never know  
We were the young and innocent  
Come aliveThe years have come and gone but I still can see  
The memories have just begunWe were the young and innocent, remember the nights  
Where did the times go wrong, we'll never know  
We were the young and innocent  
Come aliveWe were the young and innocent, forever the nights  
Keep all our memories alive  
We gotta keep 'em aliveWe were the young and innocent, remember the nights  
Where did the times go wrong, we'll never know  
We were the young and innocent  
Come alive
