

# I Fought Piranhas (Album Version)

## The White Stripes

Well I hold the rope  
And I hold the sail  
And I kept my papers  
To keep from land in jail  
And I fought piranhas  
And I fought the cold  
There was no one with me  
And I was all alone  
Well it's easter mornin' now  
And there's no one around  
So i unroll the cement  
And walk into the town  
There was no one with me  
I was all alone  
And I fought piranhas  
And I fought the cold  
Well you know what it's like  
I don't gotta tell you  
Who puts up a fight  
Walking out of hell now  
When you fought piranhas  
And you fought the cold  
There's nobody with you  
Yes you're all alone
