

Just Like a Dream

[Lykke Li](#)

Letting you go
Setting you free
No longer love
Head over heels Morning will come
My heart will break
So before you replace me
Lie with me one last time Just like a dream
Oh come, come back to me
I still believe
If you stay baby, stay with me
Darling I beg, come back to me
Just like a dream Before you forget
Was I ever real
Before you forgive me darling
For love I can't feel
Before I replace you ah
Lie with me one last time Just like a dream
Oh come, come back to me
I still believe
If you stay baby, stay with me
Darling I beg, come back to me
Just like a dream You're making my heart bleed honey
Don't ever forget me honey Just like a dream,
Oh come, come back to me
I still believe
If you stay baby, stay with me
Just like a dream,
Oh come, come back to me
I still believe
If you stay baby, stay with me
Darling I beg, come back to me
Just like a dream
