

God Has Been There

Martin's Heritage

Verse 1

You don't know what I've been through
Didn't see when I cried
But God has been there, always been there
Been alone in the valley
I've had friends turn against me
But God has been there, always been there

Chorus

Been through the storm and the rain
I've been hurt, I've had pain
But God has been there, always been there
But God has been there, always been there

Verse 1 (solo)

Chorus

Even though I caused you pain
You were there when I called your name

You've been there, always been there(4x)
