Surrender Saved My Life

This Beautiful Republic

I have had enough, buying ashes with my love
I don't need this, I don't need this
I'm pursuing counterfeit
I'm worth so much more than this
I don't need it, well, I don't need itMy flag is turning white
I need Your hope tonight
For the first time
(For the first time)
Surrender saved my lifeWhen will all this end?
Must I open up again?
I don't need this, no, I don't need this
Healing hurts a little more
But I'll be stronger than before
Yeah, I need this, I know I need thisMy flag is turning white
I need Your hope tonight
For the first time
(For the first time)
Surrender saved my lifeKeep my eyes focused, You are the long run
Keep my eyes focused, You are the long run
Keep my eyes focused
(There's no time for giving up we'll make it)
We'll make itMy flag is turning white
I need Your hope tonight
For the first time
(For the first time)
Surrender saved my life, saved my life
