

Among the Zombies

Sinners Burn

Hordes of cannibalistic zombies
Has just returned from their graves
Hungry for brains and thirsty for blood
They crawl and limp in zombie style
Ready to kill and eat whats at hand
The more they eat the stronger they get. Like a plague, they are spreading disease
Oh! Those vermin, sucking blood like bats. In the full moonlight they gather
Walk along the graveyards
Sniffing human-flesh in the night
Amorous they seduces youre wives
Who then give birth to zombie child
Now its time to burn them alive Like a plague, they are spreading disease
Oh! Those vermin, sucking blood like bats. Now we shoot them in their back
While they try to eat our dearest loved
Sticking knives in their chest
Cutting up their heart and brains Then dragging them back
To their rotting caskets
Dust to dust, Flesh for flesh
But zombies can never die!!
