

# Love Is A Powerful Thing

[Peter Friestedt](#)

Like a diamond, in the light  
Be my star, lead me on tonight  
If I lose you, clouds come in  
Do anything to bring you back again And I'm crying  
Standing in the driving rain  
Believe me when I tell you  
Love is a powerful thing Like a bible, it's the truth  
Like my hunger for the innocence of youth  
When I need you, call your name  
If I lose you, then I'm falling again  
And I'm crying  
Standing in the driving rain  
Believe me when I tell you  
Love is a powerful thing Love'll take you down  
Where you've never been  
Leave you reeling from the spin  
Like a motor, drive me on  
The heart keeps reaching 'till the thrill is gone  
Tell the story, of the King  
Took a lover and gave up everything
