Better

Takida

Once again im here but gone.
you've been hurting all alone
for a long long time
you're sleeping on the floor again
with a picture of a longlost friend
thats me before the cryAll these words I say
dont mean anything, I realize.
can I make you stay
I'll be better this time.I'll be better this time to youSometimes I dont care at all
And this could be the final call
For the angel and the dead.Im only part of a plan.
I wish I could understand
Why I am who I amAll these words I say
dont mean anything, I realize.
can I make you stay
I'll be better this time.I'll be better this time to youI'll be better this time.I'll be better this time to you.You're a idiot.Give me one more try.
No go to hell. Wait... please be mine
Im a idiot... Im a idiot. Im a idiooootAll these words I say (Ohohohohoh)
dont mean anything, I realize.
Can I make you stay?
All these words I say (Ohohohohoh)
dont mean anything, I realize.
Can I make you stay?
I'll be better this time. I'll be better this time to you
Oooh I'll be better this time.I'll be better this time to you.
I'll be better this time. I'll be better this time to you
Oooh I'll be better this time.I'll be better this time to you.
