

# Simple Things

## Mandalay

I'm trying to think this through  
Endeavor to make this my best  
And finding it makes no sense  
I'm trying to live through this Incredible and bleak sky  
Incredible undertow  
I'm trying to make this  
My endeavor to hold on to the time My heart is on the line  
You'll find In simple things the time reveals  
Will heal your mind  
In simple things the time reveals  
You will be mine Remember the truth will out  
Remember the truth will find you  
Remember the truth will out  
Remember the lies you fed us Incredible oversight  
Incredible time to tell  
I'm trying to live with this  
Endeavor to get through all of this My heart is on the line  
You'll find In simple things the time reveals  
Will heal your mind  
In simple things the time reveals  
You will be mine It's close, it's near  
It's close, it's near  
It's close, it's near  
It's close, it's near In simple things the time reveals  
Will heal your mind  
In simple things the time reveals  
You will be mine In simple things the time reveals  
Will heal your mind  
In simple things the time reveals  
You will be mine In simple things the time reveals  
Will heal your mind  
In simple things the time reveals  
You will be mine In simple things the time reveals  
Will heal your mind  
In simple things the time reveals  
You will be mine
