Through It All (feat. Glenn Hughes)

Device

I've been alone
Felt abandoned at times
Given into the fall
I can't forget what it's likeWhen I felt numb
And so hollow inside
You carried me through it all
Across the divideAnd when I went through it all
You gave me your heart
I learned to forgive
And when I come through it all
I know you're the one
I'll never forgetI've been lost
I've felt ruined inside
Watched it all crumble
In the blink of an eyeYou were strong
And so hopeful inside
Saved this fallen one
When I wanted to dieAnd when I went through it all
You gave me your heart
I learned to forgive
And when I come through it all
I know you're the one
I'll never forgetAnd when I went through it all
You gave me your heart
I learned to forgive
And when I come through it all
I know you're the one
I'll never forget(You're the reason I'm alive, the only reason I'm still alive)
(You're the reason I survived, the only reason I survived)
(You're the reason I'm alive, the only reason I'm still alive)
(You're the reason I survived, the only reason I survived)
