No Doubt

Dru Hill

This goes out to all my hustlas, all my playas
All my ballers and the hatas, no doubt
All the ladies in the thongs, low riders
And booty tangers, all my niggas wanna thank ya, no doubt
But some of ya'll, no doubt, be teasy weasy, no doubt
And you get out the way so I can't see, no doubt
How she stoppin' it, droppin' it, whoppin' it
Makin' it hot and shit, twurkin' it and jerkin'
While she flirtin', baby, let me see you
(Work it, work it, work it)
Ooh, let me see your booty girl
(Work it, work it, work it)
Work your little booty girl
(Work it, work it, work it)
Work a little [Incomprehensible] girl
(Work it, work it, work it)
Work a little [Incomprehensible] girl
Work a little harder baby, no doubt
Stop tryna act like you don't know it, no doubt
You and me would make the perfect picture, no doubt
Come over here and let me work it with ya, no doubt
Now pop it back, now pop it back
From side to side, no doubt, now pop it back
Again so I can ride, no doubt
While you stoppin' it, droppin' it, whop it make it hot and shit
Twurkin' it, jerkin' it, baby let me see you
(Work it, work it, work it)
Let me see you work it girl
(Work it, work it, work it)
Let me see you work it girl

I'm a B-more veteran, ain't nothin', no better than
This hot boy ghetto celeb hummer with leather trim
Seein' me and girls dancin' with then really must be him
Switchin' on Benzes on Benzes, well, then it must be them
Lookin' for some reefer girl, so glad to meet ya
Can ya twurk it for me real quick and then I got to leave ya
'Cause really I will freak ya out on my 2 seater
But my baby mama's callin' and I gotta meet her holla

Let me see you work it girl
Let me see you work it girl
(Work it, work it, work it)
Let me see you work it girl
(Work it, work it, work it)
Let me see you work it now
(Work it, work it, work it)
Let me see you work it girl
(Work it, work it, work it)
Let me see you work it now
(Work it, work it, work it)
Let me see you work it girl
(Work it, work it, work it)
Let me see you work it now
(Work it, work it, work it)
Let me see you work it girl
(Work it, work it, work it)
Let me see you work it now
Why, why, why before me
Why babe
