Love is Beautiful

The Timewriter

So here we go in life, to meet sunlight shine one me -
Love is beautiful/so here we go again
Hand in hand we stand, side by side we
Move to paradise/love is like an angel morning glow
You control the light, so keep it on
I can feel the rising of our times
This is a music for our lives, bodies and souls
Dreaming of once finding precious
Love that caresses our souls
I found the ultimate sunlight
I feel like I'm coming home
