

# Love is Beautiful

## The Timewriter

So here we go in life, to meet sunlight shine one me -  
Love is beautiful/so here we go again  
Hand in hand we stand, side by side we  
Move to paradise/love is like an angel morning glow  
You control the light, so keep it on  
I can feel the rising of our times  
This is a music for our lives, bodies and souls  
Dreaming of once finding precious  
Love that caresses our souls  
I found the ultimate sunlight  
I feel like I'm coming home
