

# Inner Demons

## Despised Icon

The dream is dead  
Walk away  
The pressure's pulling me down  
A dark passenger  
Pulling me down  
Is slowly taking over  
Sadness prevails  
Clouded, my judgment fails  
Pulling me down  
Come to your senses  
Pulling me down  
I've lost all my defences  
State of distress  
Haunted  
My mind is a mess  
It's over; all over  
Suffer the consequence  
Suffer the consequence  
Deeper, dig deeper  
Go on  
Vanquish my inner demons  
Deeper, dig deeper  
Go on  
Suffer the consequenceSalt all my wounds  
I'm consumed by my poisonous views  
Turn the page  
Channel all that rage  
Make it on my own  
One must face the unknown  
I'm setting myself up for disaster  
Time's up, these 15 minutes are over  
Turn the page  
Channel all that rage  
Make it in my own  
One must face the unknown  
Fighting from within  
Struggling to survive  
It's over; all over  
Fighting from within

Struggling to survive  
Vanquish my inner demons  
Fighting from within  
Struggling to survive  
It's over; all over  
Suffer the consequence  
Suffer the consequenceSuffer the consequence  
Deeper, dig deeper  
Go on  
Vanquish my inner demons  
Deeper, dig deeper  
Go on  
Suffer the consequence  
Suffer the consequenceFuck my lifeTrying my best to connect the dots  
Self-repressed with conflicting thoughts  
Trying my best to shed all my weight  
I just can't sit around and wait  
Empty days and sleepless nights  
More clichés and countless fights  
Tired eyes and hidden wounds  
Silent cries and bitter tunes  
Wake up, get up, move on  
Give me a sign, a four leaf clover  
Wake up, get up, move on  
Wake me up when it's all overI am my biggest threat  
I am my biggest threat  
I am my biggest threat
