Latex Love

Vice Squad

You're my little rubber scrubber
How I love the scent
I'm into wild perversions
And both of us are bentLet me insert the breathing tube
And the emetic
Let my bull whip bite you hard
Don't you feel ecstaticLatex, latex, latex love
It's the only way for me
Give me all your rubber love
I'll never let you freeGive me my skin substitute
And the gas mask too
I need the euphoria
And I want ft with youLock you in the wardrobe, babe
Rubber rain coat smell
Dirty mackintosh boy
Under my deviant spellLatex, latex, latex love
It's the only way for me
Give me all your rubber love
I'll never set you free
