

# Latex Love

## Vice Squad

You're my little rubber scrubber  
How I love the scent  
I'm into wild perversions  
And both of us are bent Let me insert the breathing tube  
And the emetic  
Let my bull whip bite you hard  
Don't you feel ecstatic Latex, latex, latex love  
It's the only way for me  
Give me all your rubber love  
I'll never let you free Give me my skin substitute  
And the gas mask too  
I need the euphoria  
And I want fit with you Lock you in the wardrobe, babe  
Rubber rain coat smell  
Dirty mackintosh boy  
Under my deviant spell Latex, latex, latex love  
It's the only way for me  
Give me all your rubber love  
I'll never set you free
