# We're All Fucked Up More or Less

## Randy

now bad is good and good is bad
then i was happy now i'm sad
don't know what's real or in my head
don't know if i'm alive or if i'm deadbig bad boys that aim for the sun
raise you glass honey might as well have funwe're going down down down down down into a mess
cause we're all fucked up more or lessnow good is bad and bad is good
don't know what i would, could or should
still blood-red but feeling blue
in armageddon 2002big bad boys that aim for the sun
raise you glass honey might as well have funwe're going down down down down down into a mess
cause we're all fucked up more or less
