# Falling Out

## Noah Young

Waiting here until I feel good
I'd wait here a year you know that I would for you
I would do anything for you
But as I fall into the sky
Days are passing by. There's a reason why
I'm falling outWhen I said I loved you I meant it
As if love were money oh girl you spent it all
How could you do that to me
But as I fall into the sky
Days are passing by. There's a reason why
I'm falling outTake out the night we're all falling
Into the light someone's calling me out. Out
Reaching new heights we're all saying this don't feel right
But still I'm bringing this out I think I'm falling I'm falling outSo you'll be forgotten and I'll be myself again
You can't bring me down
So find yourself another clown because this time I won't be around
Because we're not falling in love we're falling outTake out the night we're all falling
Into the light someone's calling me out. Out
Reaching new heights we're all saying this don't feel right
But still I'm bringing this out I think I'm falling I'm falling out
Take out the night we're all falling
Into the light someone's calling me out. Out
Reaching new heights we're all saying this don't feel right
But still I'm bringing this out I think I'm falling I'm falling out
