

Fire

The Music

Yeah, I'm sensible, I want peace
And I believe it's still inside of me
Far from here they speak a thousand tales
Of what we lost into an open fire I think it's time for you to look around
And see your past is like broken glass
Where are the feelings?
Where are the feelings? A false empire of burning fire
A burning fire is what you are
A burning fire gonna leave a scar
A burning fire is what you are
A burning fire gonna leave a scar I've had enough, I'm gonna hide no more
Now I've spoken, gonna speak some more
Politics are getting in the way
People telling me what I should say I think it's time for you to meet the boys
We'll cut through you like silence cuts through noise
Where are the leaders?
Where are the leaders? A false empire of burning fire
A burning fire is what you are
A burning fire gonna leave a scar
A burning fire is what you are
A burning fire gonna leave a scar Yeah, I'm not inspired I've had enough, I'm gonna hide no more
Now I've spoken, gonna speak some more
Politics are getting in the way
People telling me what I should say, woah I think it's time for you to meet the boys
We'll cut through you like silence cuts through noise
Where are the leaders?
Where are the leaders? A false empire of burning fire
A burning fire is what you are
A burning fire gonna leave a scar
A burning fire is what you are
A burning fire gonna leave a scar Yeah, I'm not inspired
Outside
