

# Wild Horses

## Sylver

The strangest faces do appear  
I startle when they come too near  
But angels have no fear  
But angels have no fearAllthough my quest is justified  
My love is strong and time is tight  
You ask me not to fight  
You ask me not to fightChorus  
Wild horses can't keep me away  
My heart keeps longin' for the day  
So I just hope and pray  
So I just hope and pray
