

When It Comes to Christmas

Alabama

Well, I'm glad little johnny wants that remote control
I know I'm gonna run it fast as it will go
And jenny wants every game that Nintendo makes
It's just around the corner and I can't wait I've got my stocking hangin', it's time to go to bed
I think I hear some reindeer, I better cover up my head
I know Santa's gonna bring us something just like he always did
Yeah, when it comes to Christmas I'm still a kid I still like shakin' presents underneath the tree
And tryin' to figure out what ole Santa's got for me
Oh, I get so excited on Christmas eve
I try my best to close my eyes, but I can't sleep Well, I've got my stocking hangin', its time to go to bed
I think I hear some reindeer, I better cover up my head
I know Santa's gonna bring us something just like he always did
Yeah, when it comes to Christmas I'm still a kid
