Take A Chance

Eric Clapton

If I don't take a chance
If I don't make a move
If I don't go looking for new romance
How will I ever find my groove?If I don't play around
How I'm gonna have my fun?
If I tried to settle down
Would have being fooling anyoneI'm out on a limb
Above a sea of bliss
I don't know why I feel this way
I only know, I love itAnd I feel so free today
You know I feel so free today
That's right, I feel so free, no matter where I go
But I feel so free todayIf I don't make mistakes
If I don't play the fool
If I have to worry 'bout the heart I break
How am I ever gonna learn the rules?I'm looking for danger
Inside the sweetest smile
I don't know why I feel this way
I only know, I love itAnd I'm feeling so free today
You know I feel so free today
You know I feel so free, no matter where I go
But I feel so free today, today, todayAnd I feel so free today
You know I feel so free today
You know I feel so free, no matter where I go
But I feel so free today, today, todayAnd I feel so free today
You know I feel so free today
