

Right Away

Styx

Written by Paul Frank

Lead vocals by James Young
I have seen you
walk in my dreams

casted high against the sky
let me meet you
let me greet you inside

take your place right next to mine
eyes I say
right away, right away
right away, right away
right away, right away

right away, right away
leaves have fallen
since I saw you last

slowly die from green to brown
in which way we choose

to live our lives again
I'm gonna lay some seeds
I'm gonna leave them laying right on the ground
right away, right away

right away, right away
right away, right away
right away, right away
right away, right away
right away, right away
right away, right away

right away, right away
right away, right away
right away, right away
right away, right away
right away, right away
