

Darkness

[Twiztid](#)

How come this wasted time is such a loss expressed on my side?

I'd give you everything if you just let me stand beside you

Your kind is so amused and still confused by what you live with

Your darkness just won't go away

No light inside for you to shine on today

Nothing but darkness in me(Chorus)

Darkness, night time

No moon in the sky tonight

Feeling like our lives been tucked away, today

Life is darkness, forever remain, and againHow come these things you say they always seem to grow and haunt me?

I'd give you everything if you just let me stand beside you

You seem to think that I would let things slide and have you change me

This darkness just won't go away

No light, inside for me to shine on today

Nothing but darkness in me(Chorus x2)

Darkness, night time

No moon in the sky tonight

Feeling like our lives been tucked away, today

Life is darkness, forever remain, and againAnd again (x15)No light, inside for me to shine on today

Nothing but darkness in me(Chorus)

Darkness, night time

No moon in the sky tonight

Feeling like our lives been tucked away, today

Life is darkness, forever remain, and again
