11-11

Team Sleep

Not even fair to box away those old faces
Not even close to the way it was then
When everyone would stay away from you
How everyone would stay away from youAnd I don't remember
How just the way the water fell down there
Could make you cry
Half these embers flew away into the dry brushes
They were taken by the fireThat sound drifting off outside
There's an unlight drizzle going onThat sound faucets off
Hang me out the window
No resolve
It's all awayThat sound drifting off outside
There's an unlight drizzle
Going onThat sound faucets off
Hang me out the window
No resolve(that sound drifting off outside
There's an unlight drizzle going on)For every piece of rice that falls Another one falls in your shorts
Eliminate the stasis burden, eliminate the stasis burden
If everyone was like lou rawls
Then no more guys would sing with drawlsRelax the goods, alright
Relax the goods, alright
When everyone would stay away fom you
When everyone would stay away fom you
