I Still Remember

Wiz Khalifa

It's a new year, new day,
The hardest regardless of what you dudes say truthfully
Who we glue to me, money talks was taught to speak fluently
Its nothin' new to me, sometimes it takes three blunts to get through to me
It only took me months to get through the streets,
But when you got beats and your lyrics are dumb hard,
Nobody gotta let you in the game you just bombard
Yeah but niggas are gon hate though,
No matter who you are there's another wantin' your place bro
Mind on cash roll the grass and fade slow, learn fast to ?
A look past the love some niggas aint sure,
Made me my own man now I do my grown man
More advanced a young'n nearly in the game,
Shit lookin' better now but I remember the rain

Rain,
I still remember the rain
I still remember the rain
I still remember the rain
I still remember the rain
I still remember

Feelin' slept on knowin' I'm the best
Songwriter or freestyle ill bite a niggas head off
The flow was ill before I inked the deal I signed
'cause a flow like mine needs a mill
I grind for real and that's no days off
You work hard for it and its gon pay off
You can rap you can work a j-o-b or duckin'
The policeman cars tryna pump weight off
See I was taught to get it how you live
Niggas know wiz' has been about his bread
In the ? I'm a beast I can speak to em all day
In high school have what u need in the hallways
Stuff long benches with raw haze attention is nothing
New its true I've been that nigga always
So what you sayin'
Remain the same with fame I gained its good now

But I remember the rain

Rain,
I still remember the rain
I still remember the rain
I still remember the rain
I still remember the rain
I still remember
Rain
