# Where Was I

## Ricky Van Shelton

Well, I think I get the message
I'm not deaf and I'm not blind
But the signals that I'm getting
Have caught me by surpriseIt seems that you've decided
To just get up and go
But if the reasons here are oh so clear
There's one thing I've got to knowWhere was I? I wish I knew
You say it's all over, baby, I'm confused
Well, wasn't that you in my bed?
It must've been all in my head
When love finally said goodbye, where was I?Well, I didn't hear the train a comin'
I didn't see the boat I missed
I didn't see the stop sign on the corner
And baby, I didn't see thisWhere was I? I wish I knew
You say it's all over and baby, I'm confused
Well, wasn't that you in my bed?
It must've been all in my head
When love finally said goodbye, where was I?Well, where was I? I wish I knew
And you say it's all over, baby, I'm confused
Well, wasn't that you in my bed?
It must've been all in my head
When love finally said goodbye, where was I?Where was I? I wish I knew
You say it's all over, baby, I'm confused
