

# Super Critical

## The Ting Tings

Super critical girl  
Taking over the world  
Super critical world  
Taking over the girlGettin it down on 45  
Come on, then you can stay alive  
Even that drum I'm beatin' on  
Get it away, I wanted more  
Given that we do what we do  
Someone get up and pay the guy  
Never can have this anymore  
Think I might turn into...[CHORUS]  
Super critical girl  
Taking over the world  
Super critical world  
Taking over this girlCinema con it, do the one  
If anyone's got a need, come alive  
What if we all get off our face?  
What if we all go all the way?  
Being the one that's seeing the most  
Look at you walking in the door  
Look at you coming back for more  
Twenty-one times a day[CHORUS]  
Super critical girl  
Taking over the world  
Super critical world  
Taking over this girl
