

Superflu

Poppy Brothers

look to your left look to your right
all of you are going to die
in your sleep common cold global warming bird flu swine flu tainted vaccine tainted food superflu
look to your left look to your right
you're lucky just to be alive
nowhere left to run
nowhere left to hide i'm struggling trying to keep my spirits up
i try to rest but the worrying keeps me up
if i'm not rich how could i be happy
if i'm not happy why would anyone love me
is there going to be a future for me the people in the news say sell sell sell
the whole world's going to hell
take your kids out of school
take your money from the bank
throw your guns in the air
we're gonna show them what we think
wait wait please stop the madness
no one's life is perfect
but it can be good if we just work at it i had a dream and you were there
i was walking on air up above it all
the sky started falling but you were there to break my fall
i woke in a sweat heart beating
i ran to the street just screaming
this can't be how it ends
