

# Predator

## Exciter

The raging worlds collide  
By tyrants doomed to die  
Break down and slay the beast  
Sheer terror from evil deeds  
Regain control - before you go insane  
Destined to search - the graves of even more  
Triumph, death's door - remove the lock of war  
Evoke the threat - of soldiers' razor's edge  
PREDATOR

PREDATOR  
PREDATOR  
Stranded by violation  
Though treason's destination  
Reeking havoc of a killer's  
Oppression and vengeance - the chase begins to live  
Terrorize, terminate - refuse your soul to hell  
Bonded by power - civilize the predator's rage  
Run and hide from the grip - the maniac will rip your face
