

Everybody's Somebody's Fool

Michael Jackson

Everybody's somebody's fool
The world is the biggest school
As you live, you learn though a torch will burn
Everybody's somebody's fool You go through life making fools of others
Pretending you're giving them love
But remember sister or brother
You all have to answer to the one you above It's beautiful to watch love begin
But oh, so sad when it ends
As you got through life remember this rule
Everybody's somebody's fool It's beautiful to watch love begin
But oh, so sad when it ends
As you got through life remember this rule
Everybody's somebody's fool
