

# Turned Out

## Helmet

Come off crisp, play up to cynic  
Clean and schooled right down to the minute  
You need to hear that your life is rough  
Speaking out and cold that you've had enough  
You know how to live and your heart's gone bi  
Substance rush is giving art a try  
Righteous squat's been burned to the ground  
Pass the buck never utter a sound  
High times, hard times  
Downtown Julie Brown  
High times, hard times  
Downtown Julie You turned out, wasted time  
Need escape me missed it, right?  
High times, hard times  
Downtown Julie You turned out, wasted time  
Need escape me missed it, right?
