

Smoke

A Thousand Horses

She comes rolling off the tip of my tongue so easy
She'll be the first thing I want when I start drinking
 Breathing her in, breathing her out,
Once I pick her up, I can't put her down,

 She's Smoke
 I pull her in nice and slow,
 She's a habit that I can't let go
 Blowing rings around my heart
One she stole, watching her sway and glow
 It's killing me and I know,
 I can't stop it once it starts,
 She's smoke

She'll go floating around like a downtown ballroom gypsy
She goes great with an ice cold beer or a shot of whiskey
 One in my hand, her on my lips,
 Man, that's as good as it gets

When the night burns out, and we all go home
Smell her sweet perfume, all over your clothes

 Like smoke Ooo-oh
 Like smoke, ooo-oh

 She's smoke

When the night burns out, and we all go home
Smell her sweet perfume, all over your clothes

 She's smoke, ooo-oh
 She's smoke, ooo-oh
